

# Solid Waste Management Board Meeting

Tuesday, July 11, 2023 – 10:00 a.m.

Barron County Government Center – Room 2151  
335 East Monroe Avenue – Barron, Wisconsin 54812

---

## AGENDA

1. Call to Order
2. Public Meeting Notification
3. Special Matters and Announcements (Non-Action Items)
4. Approve Agenda
5. Public Comment
6. Approve Minutes of June 6, 2023
7. 2023 Financial Update
  - a. Recycling Fund
  - b. Waste to Energy Fund
8. Flow Control Ordinance
9. Waste Storage and Handling
10. Staff Reports & Updates
  - a. BSTG Turbine Replacement
  - b. Acid Gas Removal System
  - c. Operator Training Report
11. Review Voucher Edit Lists
12. Suggestions for Future Agenda Items
13. Set Date for Next Meeting
14. Adjournment

**PLEASE CALL 715-537-6841 IF YOU ARE UNABLE TO ATTEND**

cc: Gores, Hanson, Schradle, Olson, Rogers, Fowler, Heil, North, Skaar, Okey, Administrator, Corp Counsel, Finance Director, Website & 3 Public Postings

*Any person with a qualifying disability under the Americans with Disabilities Act and requires the meeting or materials at the meeting to be in an accessible format must contact the County Clerk's office at 715-537-6200 at least 24 hours prior to the meeting so that arrangements can be made to accommodate your request.*

# Solid Waste Management Board Meeting

Tuesday, June 6, 2023 – 10:00 a.m.

Barron County Government Center – Room 2151  
335 East Monroe Avenue – Barron, Wisconsin 54812

---

## MINUTES

**Members Present In Person:** Burnell Hanson, Terry Skaar, Dan North, Bob Heil, Jim Gores, Pete Olson, Bob Rogers, Bill Schradle

**Members Present Virtually:** None

**Others Present:** Jeff French, Wendy Coleman, Jodi Busch, Brent Bohn, Andy Hanson, Ray Zeman

The Solid Waste Management Board meeting was called to order by Chair Schradle at 10:00 a.m. on Tuesday, June 5, 2023.

The public meeting notification was provided by French confirming compliance with open meeting requirements.

Special Matters and Announcements (Non-Action Items): French gave an update on the most polluted cities in the world.

**Motion:** (Olson / Hanson) to approve the agenda as presented. Carried

Public Comment: Ray Zeman stated that he will be updating his incinerator operator certification in case he is ever needed as a back-up at the plant.

**Motion:** (North / Skaar) to approve the minutes of May 2, 2023. Carried

2023 Financial Update: Busch reviewed the financials through April for Recycling and Waste to Energy. Recycling surcharge will be moved into the fund in the May financials. Waste to Energy revenues are up and expenditures are down with a current operating income. Discussion on steam and electrical sales.

Recycling Collections: Bohn gave an update on the manned recycling sites. The Chetek site is working well but there have been issues at the other two manned locations. Discussion on contamination and camera monitoring of the sites.

Heil asked for clarification on where the garbage from the City of Rice Lake goes. Majority of the City's waste goes to the landfill.

Waste Storage and Handling: Bohn provided information on the seasonal flow of waste and the possibility of keeping clean waste on site in an unheated waste storage building. Discussion on

# Solid Waste Management Board Meeting

Tuesday, June 6, 2023 – 10:00 a.m.

Barron County Government Center – Room 2151  
335 East Monroe Avenue – Barron, Wisconsin 54812

---

## MINUTES

options and the future of waste flow. Staff will continue to look into options and provide an update later this year.

### Staff Reports & Updates

- Fixed Asset Review: Busch reviewed the fixed asset listing which is required annually per the Fixed Asset Policy.
- BSTG Turbine Replacement: Turbine will be sent in for repairs in the next couple of weeks with a 7 - 10 day turnaround.
- Acid Gas Removal System: Bohn provided an update on the acid gas removal system project and concerns with moving forward with the waste storage silo at this time.  
**Motion:** (Olson / Hanson) to approve removal of the silo from the project and add the equipment to transport the fly ash to the ash house. Carried

Hanson departed at 11:10 a.m.

- Flow Control: Bohn continues to work on the flow control extension with the DNR.

The incorrect voucher edit lists were included in the packet this month. They will be reviewed next month.

Suggestions for Future Agenda Items: BSTG turbine replacement, acid gas removal system project, flow control

Set Date for Next Meeting: July 11, 2023 at 10:00 a.m.

French announced that Highway Commissioner, Mark Servi, will be retiring August 3<sup>rd</sup>.

**Motion:** (Rogers / North) to adjourn at 11:19 a.m. Carried

Minutes submitted by  
Wendy Coleman, Executive Assistant

*Minutes are not official until approved by the Solid Waste Board at their next meeting.*

Barron County

NO Region

Brent Bohn  
Plant Director  
Barron County Waste to Energy and Recycling Facility  
585 10 ½ Ave  
Almena, WI 54805

SUBJECT: Determination of the time period for a municipal waste flow control ordinance for the Barron County Waste-to-Energy Facility

Dear Mr. Bohn

The Department of Natural Resources (department) has reviewed the comprehensive facility project description report and addendum submitted in accordance with s. 287.13(7), Wis. Stats. The Barron County Waste-to-Energy municipal solid waste combustor (facility) is presently operating and has the necessary solid waste licenses, and approvals to operate. The department believes that the proposed 20-year extension for the waste flow control ordinance is acceptable. You shall maintain this determination with the plan of operation approvals for the facility.

Barron County submitted a comprehensive facility project description report on December 7, 2022, with additional information on April 14, 2023. The department has completed its review of the proposed project description report. The attached determination from the department will allow for the County to implement a waste flow control.

It has been noted during this review that the primary language for the flow control ordinance was written in 2008 and that updates to the ordinance to broaden the range of recyclable commodities that do not have to move through the facility as long as they are properly managed and recycled would be beneficial. Examples would include electronics, batteries, major appliances and other scrap materials, and tires.

A determination by the department's Waste and Materials Management Program does not relieve the County of the obligation to meet all other applicable federal, state or local permits, zoning and regulatory requirements.

If you have any questions regarding this determination, please contact Casey Krausensky at [Casey.Krausensky@wisconsin.gov](mailto:Casey.Krausensky@wisconsin.gov) or 608-577-3643.

Sincerely,

John Morris, Professional Soil Scientist, Regional Supervisor  
West Central and Northern Regions  
Waste and Materials Management Program

cc. Casey Krausensky, Solid Waste Coordinator, Central Office  
Bob Germer, Regional Waste Management Specialist, Northern Region  
Kate Strom Hiorns, Section Chief, Recycling and Solid Waste Section  
Duncan Moss, DNR Attorney

**BEFORE THE  
STATE OF WISCONSIN  
DEPARTMENT OF NATURAL RESOURCES**

**DETERMINATION OF TIME PERIOD FOR A MUNICIPAL WASTE FLOW CONTROL  
ORDINANCE FOR THE BARRON COUNTY WASTE-TO-ENERGY FACILITY – LICENSE # 3091**

**FINDINGS OF FACT**

The Department of Natural Resources (department) finds that:

1. Barron County owns and operates a municipal solid waste combustor (the facility) located at 585 10 ½ Ave, Almena, WI 54805.
2. The department issued the current plan of operation for the facility on June 27, 1994, with a plan modification approval issued on November 14, 2019. An initial plan of operation approval was issued for the facility on July 3, 1985.
3. The department originally issued a positive determination for a 20-year time period for a municipal waste flow control ordinance. In 2006 the department issued a positive determination for a 15-year time period extension for a municipal waste flow control ordinance.
4. On December 7, 2022, the department received a comprehensive facility project description report for the Barron County Waste to Energy and Recycling Facility that requested a 20-year extension to the waste flow control ordinance determination (until July 1, 2043).
5. The description report included:
  - a. An expected additional life expectancy of the facility of 30 years (until 2053).
  - b. A 20-year estimate for paying off financing the capital cost of a planned and approved emission control system for the facility (until 2043).
6. On January 23, 2023, the department issued a request for information to seek additional information on:
  - a. The potential for the development of improved or alternate methods or technology for the recycling or the recovery of resources from the types of solid waste to be processed at the facility and current recycling practices for certain materials including: lead acid batteries, major appliances, waste oil, yard waste, waste tires, aluminum containers, corrugated paper and other container board, foam polystyrene packaging, glass containers, magazines, newspaper, office paper, plastic containers, bi-metal containers, oil filters, oil absorbent materials, and electronic devices.
7. On April 14, 2023, Barron County responded to the request for information which provided information including:
  - a. Recycling is promoted by Barron County and residents are directed to use a drop box system to divert traditional household recyclables to the County material recovery facility.
  - b. Barron County operates a material recovery facility that facilitates the mechanical recycling of aluminum food and beverage containers, ferrous cans, #1 plastic containers, #2 natural plastic containers, #2 colored plastic containers, mixed paper, residential paper, newsprint, old corrugated containers, magazines and glass.

- c. Lead acid, alkaline, lithium ion, nickel cadmium, and nickel metal hydride batteries are considered a non desirable material at the facility and are sorted out and recycled when identified.
  - d. Major appliances are sorted out at the facility and sent to salvage yards for recycling.
  - e. The county has a facility for waste oil and antifreeze collection. Waste oil is not accepted at the waste-to-energy facility.
  - f. Yard waste is accepted at the Barron County facility but is transferred to a compost facility except for yard waste resulting from a natural disaster which is combusted at the facility.
  - g. The facility contracted with a tire recycler in 2022 for management of excess tires at the facility.
  - h. The facility removes electronics found in the waste stream and sends them for recycling to the extent practical.
  - i. The facility accepts oil filters and oil absorbent materials for combustion and energy recovery.
  - j. Approximately 1/3 of waste received by the facility comes from outside of Barron County. These materials are not part of the flow control ordinance.
8. Information reviewed in connection with the comprehensive facility project description report determination include:
- a. The 2006 revised effective time period determination for Barron County’s Waste Flow Control Ordinance
  - b. The November 14, 2019, facility plan modification approval
  - c. Barron County flow control ordinance # 2008-16, passed in 2008 and amended in 2017 that regulates materials going to the facility.
  - d. The Barron County Responsible Unit file
  - e. A check of applicable ineffective programs in the state based on the primary supply counties for the facility
  - f. Markets for mechanical recycling in Wisconsin
9. Additional information relevant to the comprehensive facility project description report determination include:
- a. The facility has been in operation for 35 years and the report indicates that the facility will operate for the next 20 years at a similar level of operation.
  - b. The Barron County flow control ordinance #2008-16 specifies that only “acceptable waste” must pass through its facility. The defined list of acceptable wastes is non-recycled paper, cardboard, plastics and appliances and yard waste that is not composted or handled by the generator in an approved manner. Allowing materials with preferred alternatives to combustion to be managed outside of the facility.

10. The department considers this determination to be a small-scale action and a minor action as defined in s. NR 150.03(15), Wis. Adm. Code.

### CONCLUSIONS OF LAW

1. The department has the authority under s. 287.13(7)(e), Wis. Stats., to determine if a proposed time period for a municipal waste flow control ordinance is acceptable.
2. In accordance with the foregoing, the department has authority under ch. 287, Wis Stats. to issue the following determination.
3. The department has authority under s. NR 150.20(1m)(k), Wis. Adm. Code, to consider a small-scale action a minor action and authority under s. NR 150.20(1m), Wis. Adm. Code, to not perform an environmental analysis under the provisions of Wisconsin Environmental Policy Act (WEPA) for minor actions.

### DETERMINATION

Barron County has demonstrated circumstances which warrant a 20-year extension for a municipal waste flow control ordinance.

### NOTICE OF APPEAL RIGHTS

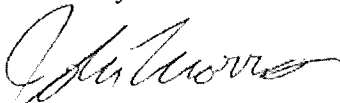

If you believe that you have a right to challenge this decision, you should know that Wisconsin statutes and administrative rules establish time periods within which requests to review department decisions must be filed.

For judicial review of a decision pursuant to sections 227.52 and 227.53, Wis. Stats., you have 30 days after the decision is mailed, or otherwise served by the department, to file your petition with the appropriate circuit court and serve the petition on the department. Such a petition for judicial review shall name the Department of Natural Resources as the respondent.

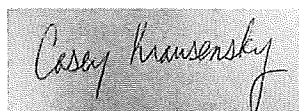

Dated: June 29, 2023

**BARRON COUNTY ORDINANCE NO. 2023 - \_\_\_\_\_**

**Ordinance Amending Ordinance No. 2008-16 Relating to the Disposal of Solid Waste within Barron County, Wisconsin (Flow Control Ordinance)**

**The Barron County Board of Supervisors ordains as follows**

**WHEREAS**, the Barron County Board of Supervisors approved Ordinance No. 2008-16 on June 16, 2008 pursuant to Wisconsin State Statutes §287.13 which adopted the Barron County Solid Waste Flow Control Ordinance; and

**WHEREAS**, the purpose of the Flow Control Ordinance provided that the Barron County Waste-to-Energy and Recycling Facility be designated as the primary designated facility to receive “acceptable waste” for the geographic area of Barron County (with the exception of the City of Rice Lake); and

**WHEREAS**, the term of the Flow Control Ordinance was established as 15 years effective July 1, 2008; and

**WHEREAS**, Section 287.13(10)(f), Wis. Stats., provides that the effective period and any revision of the effective period is required to be approved by the Department of Natural Resources; and

**WHEREAS**, on June 29, 2023, the Department of Natural Resources issued a “Determination of the time period for a municipal waste flow control ordinance for the Barron County Waste-to-Energy Facility”, approving the extension of the Barron County Flow Control Ordinance by 20 years with an expiration date of July 1, 2043; and

**WHEREAS**, the Solid Waste Management Board recommends that the Barron County Board of Supervisors approve the amendment of the Flow Control Ordinance as attached to reflect amendments made in 2017 and the new effective date; and

**WHEREAS**, this ordinance was approved by the Solid Waste Management Board on \_\_\_\_, 2023, on a vote of \_\_\_\_, with \_\_\_\_ voting in favor and \_\_\_\_ against.

**NOW, THEREFORE, BE IT ORDAINED**, that the Barron County Board of Supervisors does hereby adopt the attached amended Barron County Solid Waste Flow Control Ordinance with an effective date until July 1, 2043.

**BE IT FURTHER ORDAINED** that this Ordinance shall be effective upon its adoption and publication and that publication of this ordinance may occur through posting in accordance with Section 985.02 of the Wisconsin Statutes.

OFFERED THIS \_\_\_\_\_ day of July, 2023.

# Barron County Solid Waste Flow Control Ordinance

## ARTICLE I. GENERAL

### 1.1 Purpose

The purpose of this Flow Control Ordinance ("Ordinance") is to protect the health, safety and general well-being of the citizens of the County, enhance and maintain the quality of the environment, conserve natural resources and to prevent water and air pollution by providing for a comprehensive, rational and effective means of regulating the disposal of solid waste in Barron County.

### 1.2 Definitions

For the purposes of this Ordinance, the following definitions apply:

1.2.1 "Acceptable Waste" shall mean ordinary Household, Commercial, Voluntary Construction and Demolition Waste, Voluntary Industrial Solid Waste and similar such wastes. All such wastes are considered to be Acceptable Wastes in the broadest interpretation unless specifically exempted, listed, or defined as Unacceptable Waste . Acceptable Waste includes but is not limited to, the following:

- (1) Garbage, trash, rubbish, non-recycled paper, cardboard, plastics and appliances, refuse, beds, mattresses, sofas, bicycles, baby carriages, tires and wastes from the cafeteria and offices of industries.
- (2) Processable portions of Commercial, Construction and Demolition Waste and Industrial Solid Waste; and
- (3) Wood and lumber, tree limbs, branches, leaves, twigs, grass and plant cuttings, ties, logs and trees if not composted in a Wisconsin DNR approved compost facility or properly handled by the generator in an approved manner. Such items must be no more than eight feet long and ten inches in diameter.

Notwithstanding any provisions to the contrary, Unacceptable Waste, including Hazardous Waste, shall not be "Acceptable Waste" and is explicitly excluded therefrom. However, any substances which are not included within the definition of "Acceptable Waste" because they are considered harmful, toxic, dangerous or hazardous by any governmental agency or unit having appropriate jurisdiction shall not be considered "Acceptable Waste" unless a contrary determination has been or is made by any other governmental agency or unit having appropriate jurisdiction or unless such substances are otherwise considered "Unacceptable Waste" or "Hazardous Waste".

1.2.2 "Ashes" shall mean that residue from the burning of wood, coal, or other combustible material.

1.2.3 "Biomedical Waste" shall mean Waste that may contain human pathogens of sufficient virulence and in sufficient concentrations that exposure to it by a susceptible human host could result in disease or that may contain cytotoxic chemicals used in medical treatment.

1.2.4 "Board" shall mean the Barron County Solid Waste Management Board.

1.2.5 "Construction and Demolition Waste" shall mean that portion of solid wastes consisting of wastes from the repair, remodeling or reconstruction of buildings, such as but not limited to, lumber, roofing and sheathing scraps, rubble, broken concrete, asphalt and plaster, conduit, pipe, wire, insulation and any other materials resulting from the demolition/improvement of buildings which are accepted by a lawful, licensed demolition site as defined by Department of Natural Resources regulations as may be amended from time to time.

1.2.6 "Commercial Waste" shall mean all solid waste emanating from business establishments such as but not limited to, stores, markets, office buildings, restaurants, shopping centers, theaters, hotels, motels, nursing homes and convalescent facilities. It shall also include cafeteria and office wastes from industries, non-infectious hospital wastes and wastes from premises used for the purposes of a trade or business or for the purpose of sport, recreation, education or entertainment including but not limited to special events such as parades, festivals and public gatherings.

1.2.7 "Disposal" shall mean the discharge, deposit, dumping, incineration, spilling, leaking or placing of any Hazardous Waste or Solid Waste, sludge or septage into or on any land, air or water so that the Hazardous Waste or Solid Waste, sludge or septage or any constituent thereof may enter the environment or be emitted into the air or discharged into any waters, including groundwater.

1.2.8 "Designated Facility" shall mean the Barron County Waste-to-Energy and Recycling Facility and any attached or remote locations involved with Barron County solid waste management.

1.2.9 "Facility Staff" shall mean the Plant Director of the Barron County Waste-to-Energy and Recycling Facility or his/her designee.

1.2.10 "Hazardous Waste" shall mean radioactive, volatile, highly flammable, explosive, toxic or hazardous materials. Hazardous materials shall include but not be limited to any amount of waste listed or characterized as hazardous by the United States Environmental Protection Agency or any state agency pursuant to the Resource Conservation and Recovery Act of 1976, as amended, and applicable state law.

1.2.11 "Household Waste" shall mean Solid Waste which normally originates in a private home, residence, apartment houses or multi-family units.

1.2.12 "Industrial Waste" shall mean Solid Waste generated by any person or entity which is assessed by the Department of Revenue pursuant to Wis. Stats. §70.995. Waste originating from the cafeteria or office areas of these entities is considered Commercial Waste.

1.2.13 "Mandatory Divert Orders" are issued by the Facility Staff and must be adhered to by all parties. Anyone receiving such notification shall immediately begin transporting their waste to any available licensed facility and shall bear the responsibility for all costs and liability associated with transportation and disposal at that facility. This notice will be made by telephone, fax, email or by regular US mail.

1.2.14 "Permanent Exemptions" are issued by the Board and may last up to five (5) years. Extreme hardship or waste incineration incompatibility are the criteria for exemptions.

1.2.15 "Person" shall mean any natural person, corporation, partnership, or sole proprietorship, association or other legal entity.

1.2.16 "Public Solid Waste Disposal Facility" shall mean any land or structure or combination of land area and structures, including dumps and transfer stations used for storing, salvaging, reducing, incinerating, reclaiming or disposing of Solid Waste including the Barron County Waste-to-Energy and Recycling Facility.

1.2.17 "Recyclable Material" shall mean any material mandated by the State of Wisconsin or Federal Government to be recycled within the geographical area covered by this ordinance.

1.2.18 "Refuse Collector" shall mean a person, firm, corporation, municipality or other entity that collects, recycles or hauls the Solid Waste of another person, firm, corporation or other entity.

1.2.19 "Resource Recovery" shall mean the recovery of energy, materials or substances that still have useful physical or chemical properties after serving a specific purpose and can be reused or recycled for the same or other purposes.

1.2.20 "Responsible Unit" shall mean any municipality within the geographical area covered by this ordinance which has been deemed a Responsible Unit by the WDNR for the purposes of recycling under Wisconsin Statutes §287.09.

1.2.21 "Solid Waste" shall mean useless, unwanted or discarded solid material with insufficient liquid content to be free flowing, including by way of example but not by limitation, rubbish, garbage, refuse-derived fuel, scrap materials, junk, refuse, inert fill material and landscape refuse but shall not include septic tank sludge nor agricultural waste, Biomedical Waste or Hazardous Wastes; it shall include Construction and Demolition Waste as defined herein. The fact that a Solid Waste or constituent of the waste may have value to someone, somewhere, or other use or may be sold or exchanged does not in and of itself exclude such waste from this definition.

1.2.22 "Solid Waste Hauling License" shall mean a license required by this Ordinance for a "Refuse Collector".

1.2.23 "Special Wastes" shall mean any waste material which is neither Hazardous nor Solid Waste which has been ordered by any State or Federal Agency with authority over waste classification to be handled in a particular way. For example, combustor ash is a special waste which must be mono-filled and fluorescent light bulbs are Special Wastes since they must be recycled or else tested and handled accordingly.

1.2.24 "Temporary Exemptions" may be issued by Facility Staff for a period of up to three (3) months. They may be requested by Facility Staff or by the waste generator. Extreme hardship or waste incineration incompatibility are the criteria for exemptions.

1.2.25 "Unacceptable Waste" shall mean that portion of Waste which is not Acceptable Waste and includes, but is not limited to, sewage and its derivatives, Biomedical Waste, the non-burnable fraction of Construction and Demolition Waste, special nuclear or by-product materials within the meaning of the Atomic Energy Act of 1954, as amended, Hazardous Waste and Special Wastes.

1.2.26 "Voluntary Construction and Demolition Waste" is Construction and Demolition Waste which is both acceptable for disposal at the Facility and desired to be brought there by the generator.

1.2.27 "Voluntary Divert Orders" are issued by the Facility Staff. Anyone receiving such notification may begin transporting their waste to any available licensed facility and shall bear the responsibility for all costs and liability associated with transportation and disposal at that facility. This notice will be made by telephone, fax, email or by regular US mail.

1.2.28 "Voluntary Industrial Waste" is Industrial Waste which is both acceptable for disposal at the Facility and desired to be brought there by the generator.

1.2.29 "Waste" shall mean Solid Waste, Biomedical Waste, Hazardous Waste, agricultural waste and septic tank sludge, Special Wastes and includes both Acceptable and Unacceptable Wastes.

### 1.3 Term

1.3.1 The term of this ordinance shall be 20 years. The effective date of this solid waste flow control ordinance is July 1, 2023 upon posting or publication.

## **ARTICLE II. GEOGRAPHIC AREA, FACILITIES AND SOLID WASTE DISPOSAL**

2.1 The geographic area covered by this Flow Control Ordinance and Subsequent Required Use Order shall be all of the geographic area of Barron County, Wisconsin with the exception of the City of Rice Lake as long as the May 2008 "Flow Control Agreement" by and between Barron County and the City of Rice Lake remains in effect. Should said Agreement or the specific provision that excludes and exempts the City from this Flow Control Ordinance be found by a Court of competent jurisdiction to be void or invalid, the City of Rice Lake shall become subject to all terms of this Ordinance.

2.2 The Barron County Waste-to-Energy and Recycling Facility is the primary Designated Facility.

2.3.1 All Acceptable Wastes shall be delivered to the Designated Facility for sorting, recycling, conversion to energy or by-passed to an alternate site.

2.3.2 Mixed loads containing any quantity of Acceptable Waste shall be delivered to the Designated Facility. For example, a load that comprises mostly Industrial Wastes which are otherwise "voluntary" but contains other wastes which are "mandatory" would be required to be delivered to the Designated Facility and failure to do so would constitute violation of this Ordinance.

2.3.3 Loads of mixed wastes must comply with the Acceptable Waste definition and those which do not constitute a violation of this Ordinance.

2.3.4 Mixing "Unacceptable Waste" with "Acceptable Waste" is not allowed, and purposefully doing so is a violation of this Ordinance.

2.3.5 Certain waste materials may be better handled by other disposal methods and will be reviewed on a case by case basis. A "Temporary Exemption" may be issued on a case by case basis by Facility Staff.

2.3.6 Certain recyclable materials may be better handled by other recycling methods and may not have to move through the Facility as long as they are properly managed and recycled. Examples would include electronics, batteries, major appliances and other scrap materials, and tires.

2.3.7 The County will try to accommodate all Acceptable Wastes year around. However, some diversion for repairs or over-flow conditions may occur. Facility Staff has the authority to issue "Mandatory Divert Orders" or "Voluntary Divert Orders" as necessary. Any problems with this system may be appealed to the Board after attempts to remedy the problem with Facility Staff have been made and failed to resolve the issue.

2.3.8 Disposal Hardships may occur. "Temporary Exemptions" may be issued in writing by Facility Staff for a period of up to three (3) months. "Permanent Exemptions" may be requested in writing. They must be issued by the Board and may last up to five (5) years. Permanent Exemptions will be written into the next disposal agreement. Extreme hardship or waste incineration incompatibility are the criteria for exemptions.

### **ARTICLE III. ADMINISTRATION**

#### **3.1 Governing Board**

3.1.1 The Board shall establish by order the rules and regulations governing the availability and use of the designated Public Solid waste Disposal Facility.

3.1.2 The operation of the designated public Solid Waste Disposal Facilities shall conform to all pertinent regulations or directives of all local, county, state or federal agencies which may have jurisdiction.

### **ARTICLE IV. RESTRICTIONS AND FEES FOR DISPOSAL**

#### **4.1 Restrictions**

4.1.1 No person shall dispose upon any land within the corporate limits of the County Solid Waste of any kind generated within the County, unless such land has been designated by the Board as a designated Public Solid Waste Disposal Facility.

4.1.2 Certain materials may be excluded by order or regulation from that solid waste which may be deposited at a Public Solid Waste Disposal Facility. These excluded materials may include junk automobile bodies and similar bulky waste which may require special processing prior to disposal, burning materials or materials containing hot or live coals; and other materials which the County deems necessary to exclude. Hazardous Wastes, Biomedical Wastes, Special Wastes and Unacceptable Wastes shall not be accepted.

4.1.3 Except for licensed disposal of Industrial, Hazardous or Biomedical Wastes, it shall be unlawful for any person, firm or corporation to burn or incinerate within Barron County any Solid Waste other than leaves and other yard wastes as allowed by the Wisconsin Department of Natural Resources and local authorities.

4.1.4 It shall be a violation of this Ordinance for any person to dispose of Solid Waste generated within Barron County at any location or place other than at a Public Solid Waste Disposal Facility as designated under this Ordinance.

4.1.5 Without amendment or revision the minimum tipping fee per ton shall not be less than \$10.00 per ton and the maximum tipping fee per ton shall not exceed \$66.00 over the life of this ordinance. The actual tipping fee will be set by the Solid Waste Board on a regular basis as needed to properly manage the Facility. The tipping fee may be adjusted (either increased or reduced) based on any or all of the following reasons:

- 1) For increases or decreases in energy revenues or recovered materials revenues.
- 2) For increases or decreases in ash disposal costs.
- 3) For increases or decreases in direct operational costs including labor, repair and maintenance, consumables, testing, utility expense, etc.
- 4) For funding capital equipment rebuild or replacement.
- 5) For financing of energy/electricity generation projects or other resource recovery projects implemented by the Facility.
- 6) For expense associated with compliance with regulatory actions, legal actions, or other requirements of the Wisconsin Department of Natural Resources, the United States Environmental protection Agency (USEPA) or other federal, state, or local governmental units with such authority.
- 7) For other non-budgeted or unforeseen direct or indirect expenses associated with management or operation of the Designated Facility.

## **ARTICLE V. RULES AND REGULATIONS**

### **5.1 Persons Subject to Ordinance**

5.1.1 The persons, etc. who are subject to this Flow Control Ordinance and who may be required to use the designated Public Facility under a required use order are the following: Owners and occupants of single family or multi-family residences, retail business, commercial business or non-exempt industry or any other legally recognized entity located in or collecting solid waste within the geographic area of Barron County.

5.1.2 The Persons, etc. exempt from this Ordinance (as long as they are covered by the May, 2008 "Flow Control Agreement" by and between Barron County and the City of Rice lake) are; Rice Lake residents, all solid waste generated within the City of Rice Lake, and Refuse Collectors handling solid waste under contract with the City of Rice Lake. Should said Agreement or the specific provision that excludes and exempts the City from this Flow Control Ordinance be found by a Court of competent jurisdiction to be void or invalid, the City of Rice Lake, Rice Lake residents, all solid waste generated within the City of Rice Lake, and Refuse Collectors handling solid waste under contract with the City of Rice Lake shall become subject to all terms of this Ordinance.

### **5.2 Resource Recovery**

5.2.1 Barron County may require Solid Waste to be separated into such categories as may be established by Municipal regulation and disposed of only in such manner and at such sites and locations as designated.

## **ARTICLE VI. LICENSING**

6.1 Public and private Refuse Collectors subject to this ordinance are required to obtain and maintain a Solid Waste Hauling License as outlined in the Barron County Solid Waste Hauling Ordinance. Exemptions are for owners of dwellings with 3 or less occupancies that haul their own waste and for customers which use the designated Facility less than 3 times per year.

## **ARTICLE VII. PENALTIES**

7.1 Whoever violates any of the provisions of this Ordinance shall be punished by a fine as outlined in section 1.13 of the Barron County General Code. Each day upon which any continuing violation of any provisions of this ordinance shall occur shall constitute a separate violation, and each incident of disposal of Solid Waste in violation of this ordinance shall constitute a separate violation. In addition, Barron County may seek equitable relief, including but not limited to injunctive relief indemnification of Barron County's liquidated damages and attorney's fees and costs to ensure compliance with the terms of this ordinance.

## **ARTICLE VIII. MISCELLANEOUS**

8.1 It shall be the duty of the Board or its designee to enforce the provisions of this Ordinance.

8.2 All ordinances or parts of ordinances in conflict with this Ordinance are hereby repealed.

8.3 If any section, subsection, sentence or part of the Ordinance is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this Ordinance.

8.4 All headings, sections and titles are for convenience of reference only and shall not constitute a part of the ordinance, nor shall they affect its meaning, construction or effect.
