Re: Driveway Permit

Dear Mr. Braun,

I am writing to inform you that your driveway permit application, dated February 10, 2024 has been denied. Per the Barron County Highway Access Ordinance, there needs to be at least 200 feet of spacing between the driveway and the next closest driveway on the same side of the highway. There is an existing driveway 60 feet west of your driveway. I've attached a copy of the permit application denial.

Per the Highway Access Ordinance, if the Barron County Highway Commissioner denies a request for a driveway permit, the Highway Committee shall, upon written request by the applicant within 30 days of the denial, review the decision of the Highway Commissioner. The next scheduled Highway Committee is Thursday, November 7, 2024 at 9:30 AM.

Failure to resolve this issue will result in removal of the driveway connection to the County Trunk Highway. I recommend working with the landowner to the west to share driveway access, thereby removing one of the driveways to conform with the 200 foot minimum spacing requirement.

Sincerely,

Michael R. Hoefs, Barron County Highway Commissioner

Cc: John Muench, Barron County Corporation Council

Date 11/7/24

To whom it concern; I am formally requested a review of denial of application for access driveway to my personal property at 2061 10th Ave Chetek,Wi.Reason for denial was given as too close to neighbors driveway ,within 200 ft . I would like to see the actual definition of a driveway as opposed to a field access which is what my neighbors access actually is. This access is only used when the hay is cut and baled which was once this year and twice last year I do not see how this can create any kind of a safety issue which is what I was told is the reason for this ordinance.

ThankYou Donald R. Braun
